#### SCOTT STRIKES BACK AT SULZER COMMITTEE.

Confident Governor Will Consider His Explanation in Answer to Report on Prisons.

ALBANY, March 10 .- Col. Joseph F. Scott, Superintendent of State Prisons, upon his arrival in Albany this afternoon from Elmira, was served with a copy of the conclusions filed with Gov. Suizer by the Governor's committee of inquiry in which the committee crtiticiszed the administration of the State Prison Department. Col. Scott, in reply, issued a statement in which he says:

"It is not contended that the institutions are perfect, but I believe they are in a better condition than they have been for many years before. It is very apparent during the investigation by the committee of inquiry and by the gingerly way which they have passed over the Lewis and Clark expedition, and their refusal to investigate after my demands for a thorough investigation the more serious charges made against the department, and their magnifying petty things already known that it was impossible for me to expect a fair, just and unblased report from the committee at their hands.

"I am confident that when the Governor is apprised of the complete facts his well known sense of fair play will take into consideration the explanations I may make."
